

Lamino 8%

Amino Acids Infusion 8% w/v ; 200 ml & 500 ml Glass Bottle

Lamino 8%

Amino Acids Infusion 8% w/v ; 200 ml & 500 ml
Glass Bottle

DESCRIPTION :

LAMINO 8% is a clear, colorless injection, containing well balanced mixture of pure Crystalline, essential, semi-essential and nonessential amino acids, which are in optimum concentration for protein synthesis.

INDICATIONS :

- Indicated as an amino acid (nitrogen) source in parenteral nutrition regimens. This use is appropriate when the enteral route is inadvisable, inadequate or not possible, as when:
- Gastrointestinal absorption is impaired by obstruction, inflammatory disease or its complications, or antineoplastic therapy;
 - Bowel rest is needed because of gastrointestinal surgery or its complications such as ileus, fistulae or anastomotic leaks;
 - Tube feeding methods alone cannot provide adequate nutrition.
- For treatment of hepatic encephalopathy in patients with cirrhosis/ hepatitis & hepatic Coma.

BENEFITS & FEATURES :

- Rich in branched chain Amino acids
- Adequate protein supply during hepatic insufficiency
- Administration through peripheral vein

DOSAGE :

Recommended daily dosage: For intravenous infusion 1.2 to 1.6 ml/kg body weight/hour.

Dosage should be adjusted according to amino acid requirements depending upon age, body weight and condition of patients. Adequate calories should be administered simultaneously either orally or parenterally.

INFUSION RATE :

LAMINO 8% should be infused at 28 to 38 drops / minute for 70 kg body weight patient.

ADMINISTRATION :

LAMINO 8% is available as a sterile, non-pyrogenic, single dose container that can be administered through peripheral veins or by central venous route using non-pyrogenic I.V. administration set using aseptic technique.

PRESENTATION :

LAMINO 8% is available in 200 ml / 500 ml glass bottles.
