# ENZISPOR™

Spores of Polyantibiotic-resistant *Bacillus clausii* 2 Billion CFU Capsules

## INDICATIVE USES :

- In rejuvenating gut microflora
- Acute and/ or Chronic diarrhea
- IBS
- May exert a modulatory effect on allergic response

## COMPOSITION:

Each capsule contains:

Active ingredient: 2 billion spores of polyantibiotic-resistant *Bacillus clausii*

## DESCRIPTION:

Enzispur is an anti-microbial agent for the intestine, that is, it contains anti-diarrhoeic microorganisms, so it is a drug for treating intestinal bacterial flora disorders. It is used to cure and prevent intestinal bacterial flora disorders. Enzispur restores the intestinal flora balance upset during treatment with antibiotics or chemotherapeutic products, helping to correct consequent dysvitaminosis conditions (that is, anomalous vitamin production and assimilation).

## MODE OF ACTION :

*Bacillus clausii* spores owing to their elevated opposition to both physical and chemical agents, crosses over the obstacle of the gastric juices reaching undamaged the GI tract where they are changed into metabolically dynamic vegetative cells thereby contributing to the recovery of the intestinal microbial flora altered by various causes.

Further more, *Bacillus clausii* is capable of producing various vitamins, particularly the B vitamins, and help correct disvitaminosis caused by chemotherapeutic agents and antibiotics in general.

Because of this resistance to antibiotics, Enzispur can be administered in the interval between two doses of antibiotic. The antibiotic resistance mean resistant to several different antibiotics: penicillins, cephalosporins, tetracyclines, macrolides, aminoglycosides, novobiocin, chloramphenicol, thiamphenicol, lincomycin, isoniazid, cycloserine, rifampicin, nalidixic acid and piperimidic acid.

## DOSAGE AND ADMINISTRATION:

Adults: 2-3 capsules per day; Children: 1-2 capsules per day. Swallow with a sip of water or some other beverage like sweetened water, milk, tea or orange juice.

## PRECAUTIONS:

Administer by prescription and under medical supervision.

## PRESENTATION:

Box of Enzispur contains the 10\*10 capsules packed in each monocarton of 1\*10 caps.
