HNU-D3 60K

CHOLECALCIFEROL CHEWABLE TABLETS 60000 IU

DESCRIPTION:

- **HNU-D3 60K** is available in the form of Chewable tablets and each uncoated tablet contains Cholecalciferol IP 60000 IU (International Units).
- Cholecalciferol (Vitamin D3) is a fat soluble vitamin, that is known to help the body to absorb and retain calcium and phosphorus. Vitamin D is derived endogenously upon exposure of the skin to UV light, leading to photochemical conversion of 7-dehydrocholesterol to cholecalciferol (Vitamin D3).

INDICATION:

For treatment and prevention of vitamin D deficiency states like in,

KEY FEATURES:

- Vitamin D,
 - Enhances calcium and phosphorus absorption by 30–40% and 80%, respectively.³
 - Contributes to the detoxification of toxic and chemical compounds, maintaining gut homeostasis.⁴
 - Vitamin D potentially has potent immunomodulatory actions on the T-cell-mediated processes implicated in the pathogenesis of Irritable Bowel Disease (IBD).⁵
- The weekly dose of 60000 IU of vitamin D is more efficacious than daily dose 1000 IU in increasing the vitamin D level to normal range as well as in mitigating the deficiency symptoms.⁶

DOSAGE:

Vitamin D₃ 60000 IU to be given once a week for a period of 8 weeks, followed by maintenance daily dose as directed by the physician.

PRESENTATION:

HNU-D3 60K Chewable tablets are available as a strip of 10 tablets.

STORAGE:

Store in a dry place at a temperature not exceeding 30°C. Protect from light.
