

La Renon

L-Glutamine Oral Powder 15 gm Sachet

Reclaim The **Requisite**

Available In

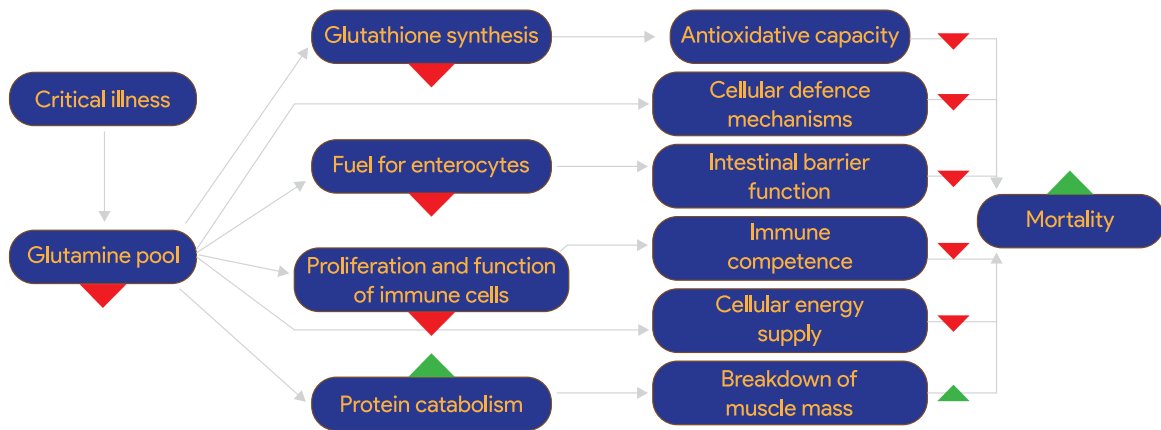

lemon  
FLAVOR

## Background:

- Glutamine (Gln), usually in the form of L-glutamine, is available by itself or as part of a protein supplement.<sup>1</sup>
- It is the most abundant free amino acid (AA) in the body with concentrations fluctuating around 500–900 μmol/L. <sup>2</sup> It is a key nutrient of intestine as it utilizes about 30% of total glutamine.<sup>3</sup>
- Gln is a conditionally essential AA, during severe metabolic stress (i.e. trauma, sepsis, major surgery, bone marrow transplant, inflammatory bowel disease) the body suffers depletion in its circulating levels.<sup>2</sup>
- Glutahigh is available as 15 gm of sachet containing 10 gm of L-Glutamine in granule form, which can be used orally and through the tube feeding as well.

### Glutamine Depletion In Hypercatabolism:

## Indications:

- In Metabolic stress including trauma, sepsis, and inflammatory bowel diseases.
