ESOGRESS-HP

Combipack of Clarithromycin 500 mg, Esomeprazole 40 mg & Amoxicillin 750 mg Tablets

The
Effective Trio

DESCRIPTION:

ESOGRESS-HP/HP FORTE is a combination of two antibiotics and PPI that effectively treats peptic ulcer disease caused due to *H. pylori* bacterial infection.

It fights against the bacteria to treat the infection. It also relieves acidity and discomfort related to the infection.

INDICATION:

For healing of duodenal ulcer associated with *Helicobacter pylori* and eradication of *Helicobacter pylori* in patients with active or healed peptic ulcer.

MECHANISM OF ACTION:

- Clarithromycin is an antibiotic that works by killing the bacteria (*Helicobacter pylori*) that is causing the infection.
- Esomeprazole is a proton pump inhibitor and acts by reducing the production of stomach acid.
- Amoxicillin is an antibiotic which works by preventing the formation of the bacterial protective covering which is essential for the survival of bacteria in the human body.
- **ESOGRESS-HP/HP FORTE** fights against the bacteria to treat the infection. It also relieves acidity and discomfort related to the infection.

BENEFITS OF ESOGRESS-HP/HP FORTE THERAPY:

- PPI-based triple therapy has better tolerability and higher efficacy.
- Esomeprazole 40 mg B.D. improves the *H. pylori* eradication rate closer to 100%.¹
- Prolonging the period of PPI-clarithromycin-containing triple treatment from 7 to 14 days increases the eradication rate by about 5%.²
- Clarithromycin 500 mg gives a significantly higher eradication rate than the 250 mg dosage.³
- Regimens including amoxicillin show a better eradication rate and *H. Pylori* does not develop resistance to it.^{4,5}

DOSAGE:

One pack of **ESOGRESS-HP/HP FORTE** is for 1 day of treatment. From this specially designed pack, one tablet of clarithromycin, one tablet of esomeprazole, and one tablet of amoxicillin are to be taken in the morning and similarly one each in the evening or as directed by the Physician.

PRESENTATION:

ESOGRESS-HP/HP FORTE is a combipack and each pack contains two tablets of clarithromycin, two tablets of esomeprazole, and two tablets of amoxicillin.
